Rinnai

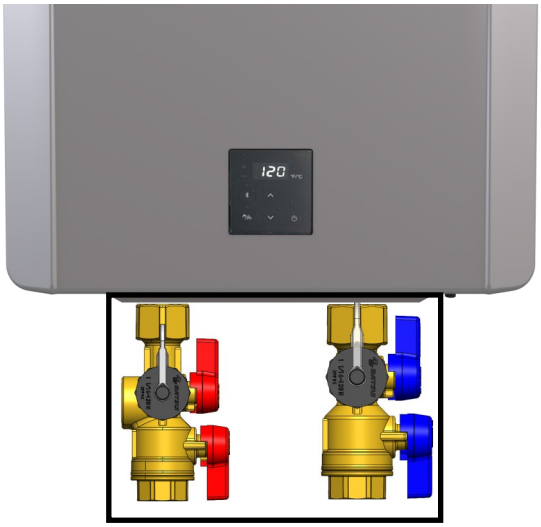
Water Heater Isolation Valves and Pressure Relief Valve Kit

KIT CONTENTS

Hot Water Isolation Valve

Cold Water Isolation Valve

Pressure Relief Valve (PRV)



Sample illustration of valves installed on water heater (water heater not included with kit)

SPECIFICATIONS

Kit Name	Tankless Water Heater Isolation Valves and Pressure Relief Valve (PRV) Kit
Kit Part Number	MIVK-T-LW
Purpose	To isolate the water heater from the structure's plumbing to allow quick access for maintenance, service, and testing.
Features	• Color-coded valve handles for easy identification of hot and cold valves • Compact design for easy fit with any Rinnai tankless water heater recess box/pipe cover • 100% leak tested
Tankless Water Heater Models	• Condensing Models: RX, RXP, CX, CXP, RUCS and older condensing models • Non-Condensing Models: RE, REP, RL, RLX and older non-condensing models
Material	Heavy-duty forged brass construction
Connection Size	• 3/4 in. Female NPT Unions for Connection to Water Heater • 3/4 in. Female NPT Threaded Connections to Plumbing
Certifications	• Complies with Lead Plumbing Law • Meets NSF/ANSI 61: *Drinking Water System Components-Health Effects*
Included with Purchase	• Cold Water Isolation Valve • Hot Water Isolation Valve • Pressure Relief Valve – 150 PSI (1,034 kPa) – 200,000 BTU/hr
